How to keep a library in a 12-inch drawer

You can keep anything from a complete file of research reports to a 250-volume library of all the basic literature in your field, right at your finger tips—on microprint cards. As many as 60 pages go on a single 3 x 5" card. Your library is on the backs of its own catalog cards!

You just feed microprint cards into the Kodagraph Microprint Reader and read, whether for fast scanning or intent scrutiny. The screen is glareless green, tilted 11° because that seems to be the most comfortable angle. No need to dim lights. Big enough so others can read along with you. Accepts cards up to 8½ x 14" size. Does this sound like the answer to a library problem you have—or a library you'd like to acquire?

What's available on microprint cards?

More technical literature in science, the humanities, law, and finance becomes available each year. For free condensed catalog, "What's Available on Microprint Cards," check box at right.
